Gerner Red Angus  
Olson Hereford Ranch**

## — General Information —

**Sale Time:** 1:00 CST, Thursday, February 17, 2005

A noon lunch will be served on sale day.

**Location:** Main Arena of the North Dakota Winter Show Building in Valley City, ND — just north of Interstate 94 at exit 292 and up hill one mile.

**Motels:** Headquarters — AmericInn 701-845-5551

**Delivery:** Free delivery to central points up to 300 miles and further distances at cost. Take your bull home sale day and get \$50 off.

**Free Wintering until April 1st:** of any bull purchase of \$2,000 or more.

**Guarantee:** All cattle are fully guaranteed according to the standards set by the American Red Angus & American Hereford Associations.

**Terms:** Terms of the sale are cash or check.

Settlement must be made immediately following the sale before animals can be loaded or delivered. Every animal sells to the highest bidder. Any correction from the auction stand takes precedence over printed material in the catalog.

**EPDs:** All EPDs are current as of Jan. 6, 2005. Registration numbers are provided so you can research animals further at breed websites: [www.redangus.org](http://www.redangus.org) or [www.hereford.org](http://www.hereford.org).

**Cattle on Display:** All sale cattle will be available for viewing from 3 to 7 PM on Wed., February 16 and 9 AM to 1 PM Sale Day in the comfortable ND Winter Show Building — parking on North and West ends. Each breeder will be caring for their own animals prior to the sale. We invite you to stop and inspect the cattle in their native setting.

**Supplement Sheet:** More information will be mailed one week prior to the sale and made available sale day, including: Rib Eye Area, Back Fat, Marbling, Pelvic Area and Scrotal Measurement, EPDs, Birth Wt., Weaning Wt. and Yearling Wt. are all provided in the catalog. We hope to provide you with the most accurate information possible so when you see the bulls you can make the best decision for your program.

**Mail and Phone Bids:** Bidders unable to make the sale may contact the sale staff or make prior arrangements to be on a sale day phone.

**Dear Cattlemen,**

Welcome to the RED POWER PERFORMANCE BULL SALE on Thursday, February 17th. We are your Northern source for quality bulls: OHR Red Angus, Lloyd Red Angus, Gerner Red Angus and Olson Hereford Ranch. We are 4 breeders with one goal of "Genetic Excellence." We share many of the same thoughts, goals and exciting vision for the future of the beef cattle industry.

The sale offering includes: 50 High Performance Red Angus Bulls, 22 Select Red Angus Heifers and 12 Excellent Polled Hereford Bulls. We have selected only the best bulls so that the highest quality can be made available for your selection. Performance is priority, but the sale offering will include: Calving ease, high maternal, superior carcass and growth bulls (many will excel in most traits.) Every effort has been made to bring you the highest quality bulls backed by the most accurate information possible so you can select the best bull for your breeding program.

As the catalog gets mailed out the testing continues. A supplement sheet with a sample of the bulls and heifers selling will be mailed to you a week before the sale with additional data including: Carcass Data from Ultrasounding, Pelvic Area, and Scrotal Measurements.

Should you need additional information please feel free to contact any of us. See you on the 17th.

Sincerely,  
Red Power Performance Breeders

## The Red Color of Red Angus Has 3 Distinct Advantages

1.) Red is the most populous color of cattle breeds world wide. Red Angus provides a continuity and uniformity of color to any crossbreeding system.

2.) Red is more heat tolerant than black and the bronze pigmentation gives great resistance to cancer eye and sunburned udders. The majority of the world's cattle are in areas that need heat tolerance, so the red color is a definite advantage.

3.) Being crossed red always breeds true. Red Angus carry no diluter genes and thus avoid the grays that result when crossbreeding with blacks.

*Red Angus Bulls make a great cross with many breeds to increase fertility, improve calving ease, moderate mature frame type, add maternal excellence and improve efficiency. Red Angus Bulls are known to work especially well on Simmental & Charolais heifers. Calving ease and fertility are important because if the calf dies at birth or if the cows are open, there's nothing to wean. There are many Red Angus feeder calf sales to help you gain an additional premium for those Red Angus sired calves. Put the RED FACTOR to work in your program!*

**We Have What Everybody Wants,**

**The Respect of the Entire Cattle Industry...**

**...and it's not because of the color of our hide.**

# OHR Red Angus Lots 1-34

We are proud to offer you the most powerful group of bulls we've ever raised. They are very uniform and deep in quality with extra muscle, performance, structural soundness, calving ease and eye appeal. They are backed by productive problem-free mothers from strong cow families. Part of our offering is from OHRR Dakota Copper 29K - 2000 NILE Bull Calf Champion. These bulls have been developed on a roughage based ration to give you a very sound, good footed bull that will do well and last! This year we also have a super set of fall yearlings and coming 2 year olds. The OHR herd is John's free.

EPDs	0.3	19	37	21	30	11	-.08	-.39	-.01

First calf dam out of Explorer and the 15F female family. A great effort on her first time out. The M females are awesome. Note the weights and the milk EPD. 100M sire has produced one bull and four females — one in this sale and 3 replacements — they are all excellent calves. This bull will be an asset to any program.

A stout, smaller framed heifer bull out of our King Rob son, Durango. The dam is a very deep bodied, excellent uddered cow with a calm disposition.

**Purchase a Red Power bull and receive:**

1. \$50 off if you take him home from the sale.
  - Bring a neighbor and a trailer to multiply the savings!
2. Free delivery up to 300 miles.
  - Further distances at cost to central delivery points.
3. Free wintering on bulls over \$2,000.
  - We will keep the bulls at no cost until April 1.
4. More bull value for your dollar!
  - Nowhere else will you find this many top end Red Angus bulls at affordable prices.

# Red Angus Heifers - Lots 51-72

We are offering 22 excellent, top quality Red Angus yearling registered heifers. These heifers are from productive, trouble free cows with good feet and udders. They are the kind we'd like to buy! A number of these heifers are SHOW QUALITY! The heifers have not had extra care but have been developed on a roughage diet as if we would be keeping them for our own replacements. Lots 51 to 62 are from OHR Red Angus. Lots 63 to 72 are from Lloyd Red Angus. Here's an opportunity to select females from the area's top breeders! OHR offers semen on bulls they own to be used for breeding these heifers.

The dam Belga 30-0 is a wide cow with a uniform, 6.2 build. Elway Belga 04 may be a little taller because Horizon is a 6.5 bull. Note the WW of 672 and her EPDs are mouth-watering. She carries herself gracefully.

## The Hereford Advantage

Hereford Bulls cross very well with Angus base cows to produce the beef industry's most ideal females — the F1 baldy. To gain true efficiency and reap the benefits of hybrid vigor use a Hereford bull on your black females.

Consider this:

- Hereford Bulls Last Longer
- Herefords have #1 Disposition
- Herefords are Efficient & Hardy in the North

## Kodiak... "Carcass Bull Supreme"

VCR East Kodiak 506E is a Trait Leader for 5 important and highly heritable traits: Ribeye, Marbling, Weaning Weight, Yearling Weight and Scrotal. He ranks in the top 2% for REA and the top 15% for Marbling — a rare combination. Kodiak is one of the breed's premier sires and we are proud to have him in our pasture.

In January 2005, the American Hereford Association released a set of Economic Selection Indexes. These profit indexes enable Hereford breeders and their commercial bull customers to select sires that maximize profit under commercial production situations.

The first is a Baldy Maternal Index (BMI) which is an index to maximize for commercial cow/calf producers who use Hereford bulls in rotational crossbreeding programs on Angus based cows and heifers. Retained ownership of calves through the feedlot phase of production is assumed, with fed cattle marketed on a Certified Hereford Beef, LLC pricing grid. KODIAK is in the Top 1% of the breed for this BMI Profit Index.

Another is the Brahman Influence Index (BII) which is similar to the BMI but uses Hereford bulls in a rotational program with Brahman based cattle rather than Angus. This Index places greater emphasis on traits deficient in Brahman crossed cattle such as fertility and age at puberty, and less on traits that are more acceptable in those cattle, such as growth and calving ease. Kodiak is also in the Top 1% for this index.

The Certified Hereford Beef Index (CHB) is a terminal sire index, where Hereford bulls are mated to British-cross cows and all offspring are sold as fed cattle on a CHB LLC pricing grid. Kodiak is also a leader here in the top 5% of the breed.

Finally they've put data out on PROFITABILITY and it's no surprise to see Kodiak at the top. As they just came out we will not have Profit Indexes listed in this year's catalog. Many of the bulls in this year's offering are in the top ranks of the breed.

# Olson Hereford Ranch - Lots 73-84

North Dakota's oldest active Hereford breeder. We began in 1936 and have been leading the way in Polled genetics for the past 39 years. Our sale offering has "something for everyone." Our bulls are backed by strong, productive cows - most of them are pictured. Many of our bulls are well suited for use on heifers. Many are from our senior herd sire Kodiak, "Carcass Bull Supreme," a five trait leader. We are a Johné's free herd.

Recommended for heifers. Long bodied, attractive, good hipped son of the popular America bull. Dam is a perfect uddered Bond daughter that traces also to Deliverance and Enforcer. Her WWR production is 104. A very complete, well balanced bull with good data. Patriot is in the top 10% for Weaning, Milk & Growth and Scrotal and in the top 25% for Yearling, Milk, Ribeye Area, Baldy Maternal Index and Certified Beef Index.

*More information available sale day.*

*Dear Cattlemen,*

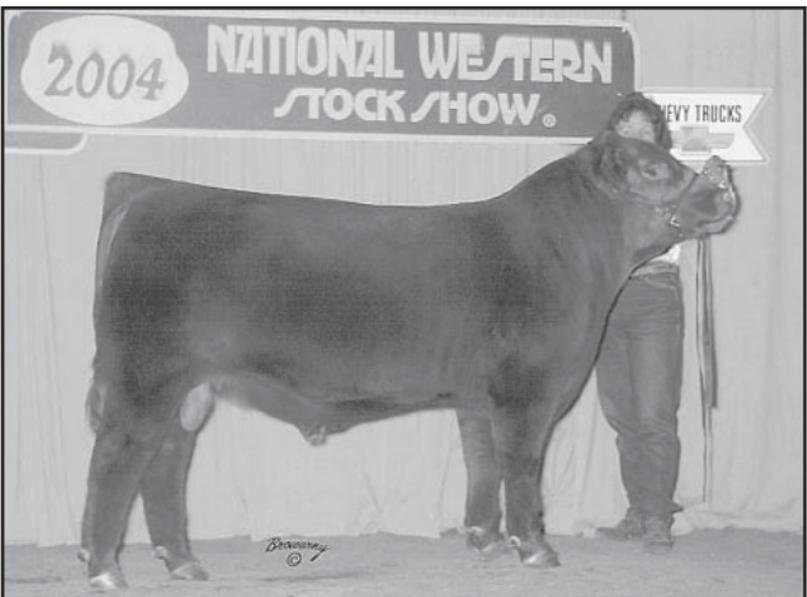

*We've been raising cattle at Knecht Farms for over sixty years with an emphasis on the Red Angus breed for the last twenty. We mix in a little Gelbvieh and Red Simmental to maintain the hybrid vigor all commercial cattlemen strive for. To us "good cattle" means an animal with a good disposition, a good top, good hind-quarters and depth in the rib. We're also very fussy when it comes to udder quality in our females. Through a very strict culling program we've been able to eliminate virtually all disposition and udder problems in our four hundred head cow herd. These heifers are a sample of our first offering of bred females. We hope you like them as much as we do. Thanks to the Olsons, Lloyds, and Gerners for letting us participate in this great event.*

*Troy C. Knecht  
Knecht Farms, Inc.*

# Notes

## **Purchase a Red Power bull and receive:**

1. \$50 off if you take him home from the sale.
  - Bring a neighbor and a trailer to multiply the savings!
2. Free delivery up to 300 miles.
  - Further distances at cost to central delivery points.
3. Free wintering on bulls over \$2,000.
  - We will keep the bulls at no cost until April 1.
4. More bull value for your dollar!
  - Nowhere else will you find this many top end Red Angus bulls at affordable prices.

**4L Advantage R9N**  
**Bull Calf Champion, 2004 National Western Stock Show,**  
**Denver, CO. Look for his progeny in next year's sale.**
