Cattlemen,

Welcome to our Red Power Performance Bull & Female Sale! It seems like there are more people than ever selling bulls! With many new breeders and sales you have never heard of you may be thinking where should I buy a bull? At OHR we work hard to provide really good bulls that will work for you! Every good bull starts with a really good mother - the more great cows you can stack in a pedigree the better and more predictable the bull will be. Genetic selection is made on a balance of multiple traits with performance as a priority. We take pride in developing the bulls on a roughage based ration to ensure they will be sound, problem free and have longevity. Finally we stand behind our cattle 100%. Your success is ours!

Again this year we have a great group of powerful yearling bulls! Also there are 20 two year olds and a handful of fall born bulls if you prefer an older bull. The sale heifer pen is loaded with good ones again - many with show potential. This is one of our best groups ever!

Our family has been in the registered cattle business since 1936 and we are committed to providing you great Red Angus & Herefords that are productive, problem free and developed to last. Contact us if you have any questions.

Sincerely,
The Olsons

Moderate sized, deep middled, thick made, correct son of Homefront with a 72 pound birth weight he could work on heifers but he is a bit high on birth EPD and pretty stout structured. Progress 30S is a trait leader for calving ease. Granddam 10M kept birth weights down and was a Dam of Distinction.
