

# 2018 Red Power Hereford Bred Females Supplement info

These 10 cows were pregnancy checked safe again on February 7, 2018. The feature service sire for this group is our senior herdsire extraordinaire - Caretaker! These are good, young, productive females in the prime of their life - many with calves in the sale also. We simply have more cattle than we have room to pasture. Here are some animals related to those selling!
